Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This communication is in response to Applicant's RESPONSE TO RESTRICTION REQUIREMENT filed January 25, 2007. Claims 1-10 were elected and are currently pending in this case.

Acknowledgements

2. Examiner gratefully acknowledges Applicant's courteous reply to the Requirement for Restriction issued on December 1, 2006, as well as Applicant's election of group I, claims 1-10. Examiner, however, respectfully directs Applicant's attention to the further Requirement for Election of Species in group I and repeats, for Applicant's convenience, the said Requirement here below:

3. Applicant is advised that, in the event of choosing Invention I, said Invention I is further subject to an election of species, as follows.

4. Claims 1, 5 and 8 are generic to the following disclosed patentably distinct species:

IA. Claim 2, drawn to a Global Cargo Container Information Clearinghouse, system and method of operation thereof, and further comprising a mutual benefit association including commercial entities and government agencies.

IB. Claims 3 and 6, a Global Cargo Container Information Clearinghouse, system and method of operation thereof, and wherein the GCCIC system provides products to the users of the GCCIC.

Art Unit: 3621

IC. Claims 4 and 9-10, a Global Cargo Container Information Clearinghouse, system and method of operation thereof, and further comprising an incentives program to encourage compliance.

ID. Claim 7, a Global Cargo Container Information Clearinghouse, system and method of operation thereof, and further comprising a GCCIC service provider that provides technical assistance.

5. The species are independent or distinct because each may be implemented separately from the others, thus representing different embodiments.

6. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

7. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

8. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

Art Unit: 3621

requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

9. The election of species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

10. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cristina Owen Sherr whose telephone number is 571-272-6711. The examiner can normally be reached on 8:30-5:00 Monday through Friday.

11. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew J. Fischer can be reached on 571-272-6779. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
